

Xylene-Free

Eco-Friendly, Strong, Brilliant.

What it means to be **GREEN** at IMC Marks...

IMC Marks strives to meet the needs of all our customers. This includes bridging the gap between performance and environmental compliance.

Performance

Chemicals in the workplace continue to raise concerns with regard to environmental and health safety issues. To meet the challenges of increasingly stringent global regulations comes product evolution. IMC Marks Prime-Action and Prime-Action +30 PaintMarkers combine “Xylene-free” paint formula with proven weather and chemical resistance.

Compliance

IMC Marks Prime-Action and Prime-Action+30 Paintmarkers are California Proposition 65 compliant and are not reportable under SARA Title, III Section 313. Meeting these guidelines means decreasing liabilities, and decreased workplace hazards thereby improving productivity.

IMC Marks Prime-Action and Prime-Action +30 paintmarkers do not contain Xylene, toluene or ethyl benzene, yet they dry faster and have improved bright visibility.
